

## PRESS RELEASE

### Simon Hegele starts operating new Logistics Center in Muggensturm

- **New logistics space on 20,000 square meters**
- **For customers from the industrial and retail sectors**
- **Creation of over 80 new jobs**

Karlsruhe, August 9, 2022 – On July 01, 2022, Simon Hegele Gesellschaft für Logistik und Service mbH took a new logistics center in Muggensturm, Baden-Württemberg, south of Karlsruhe into operation. The 20,000-square-meter modern logistics building expands the logistics service provider's range of space for its customers from the industrial and retail sectors.

At the new location in the Muggensturms industrial area directly by the A5, Simon Hegele will prospectively supply the production of a market leader in the retail sector and ensure just-in-time delivery to an electronics plant in Karlsruhe. In addition to classical contract logistics, the company also provides rollout services and special value-added services for customers in the decorative cosmetics sector.

In order to best meet the requirements of retail and industrial customers, Simon Hegele is relying primarily on wide aisle racking at the new location and also plans to create 80 new jobs by the end of the year.

Christoph Ludin, Managing Partner of Simon Hegele Gesellschaft für Logistik und Service mbH: "To be allowed to grow together with existing customers, is the greatest compliment to a logistics and supply chain partner. We are pleased about the trust put into us, the continuation of the successful cooperation on a new level and, of course, about the new colleagues on site."

#### About the Simon Hegele Group

The Simon Hegele Group is one of the most innovative service providers along complex supply chain processes. The principles of "more than just logistics..." and "we make healthcare work" have been the driving force for the further development of the group and its services for many years. Simon Hegele offers customers from the healthcare, pharmaceutical, industry and retail sectors at over 50 locations worldwide highly specialized value-added services tailored to the respective customer processes and supports them in focusing on their respective core competencies.
